

The 4 stages of "GETTING"

Crazy Morons!
For only 140
characters?

God, Twitter is so
boring. There's
nothing to do
with it.

I tried it for a day.
It's sooo stupid.

stage 1

COMPLETE INABILITY TO UNDERSTAND TWITTER

General feeling of superiority at not having fallen into the fad of being an active tweep.

I'm curious anyway.
I had a burger for
lunch today, people.

My favorite
quote: "I think
therefor I am."

stage 2

TRYING (& FALLING) TO ENJOY TWITTER.

Consistently attempting to enjoy being on Twitter by doing what they're used to doing: rambling aimlessly about the weather, lunch, and favorite quotes.

Hey! You RTed
me! Thanks! :)

stage 3

"OHH, SO THAT'S WHAT TWITTER IS ABOUT!"

The more RT's and @'s a person gets, the more they understand what works and what doesn't on Twitter, and the more they enjoy the experience!

I love you
tweeps!

Twitter is down
for a second!
NOOO! Isn't the
fail whale so
cute?

You are so helpful!
Thank you!

Haha @You, thats the
funniest thing I ever
heard. Check this:
